

EHSAN MAHPOUR

Qualifications

- Excellent Programming skills. Experienced more than 6 years with most known programming Languages like C#, Java, Visual Basic, VB.Net, VB Script, Java Script, C and C++ also XML, XSL, XHTML, CSS.
- Experienced with most popular Data Base Engines (Microsoft SQL Server, My-SQL, InterBase, Oracle and DB2) in several enterprise level projects.
- Experienced with the latest technologies and frameworks of web/windows application development. (Microsoft .NET Framework 1.0 & 2.0, AJAX and ATLAS).
- Complete knowledge of analyzing Database Business Models, designing and querying relational databases using DML, DDL and DCL.
- As a honored of *international collegiate programming contests* in Asia (acm) on December 1999, Proficient at applying analytical and mathematical skills with an integral approach to solving problems and creating optimum software algorithms.
- Familiar and experienced to design and analyze information systems with *Unified Modeling Language (UML)* using IBM Rational XDE, IBM Rational Rose and Microsoft Visio.
- Experienced more than 10 years with most popular Rapid Development IDE's like *Borland Delphi, Borland JBuilder, Microsoft Visual Studio .NET, PHP Zend Studio and Macromedia Dream Weaver.*
- Special talent and experience in Computer graphics and web design using most popular tools like 3D Studio Max, Adobe Illustrator, Adobe Photoshop, Macromedia Flash, Macromedia Dream Weaver and Front Page to create printing illustrations, movie clips, website templates and logos.
- Good knowledge of administration in various Operating Systems like Unix/Linux/Windows 2003 for setting up and configuring some network services like DNS Servers, Web Servers, Media Streaming
- Laboratory Experiences developed in *computer hardware architecture*, programming simple microprocessors using assembly language and designing computer electronic circuits.
- Ability to learn new concepts quickly, and able to work productively in team or independently.

Education

2005 - 2006	Canadian College of Business and Computers - Toronto - Canada Industrial diploma in E-Commerce and Web Design.
1996 - 2000	University of Esfahan - Iran Bachelors in Computer Hardware Engineering.
1995 - 1996	Adab College - Esfahan - Iran Diploma in Mathematical Sciences.

Awards and Recognitions

- Recognition because of hard work and commitment to the team. (Cellcom Telecommunications Co.)
- Honorable certification from ACM institution for international collegiate programming contests in Asia on 1999 (IBM Co.)
- Recognition for an introduction of .Net Framework technology in 8th electronic and computer seminar between universities and colleges of Iran on Dec 2000.

Work Experience

GRFE Web Solutions Company, April. 2005 - Present:

- **Senior Programmer**

Design and developing over 30 web sites for companies in Canada and US.

Designing and developing more than 6 different multilingual online services like intelligent news processor, business directory, search engine, email services, localized ad management system on iran.com website.

Canadian College of Business and Computers, Feb. 2005 - April 2005:

- **Software Developer**

Developing some web applications for online exams, College financial reports and students refund calculator. Also web designing for PPL program. (Teachers for freedom)

ARIANA IT Co., Jan 2004 – Jan 2005:

- **ASP.NET Technical Manager / Share holder / Founder**

Design and developing some web / windows based application frameworks and portals for some Iranian governmental organizations.

Developing and registering an automated IVR (Interactive Voice Recognition) software system for the first time in Iran.

Malaysia Telecommunications Co (CELLCOM) / Esfahan Mobile Telecommunication Co., Nov 2004 – Dec 2005:

- **Contractor**

Design and developing a high secure e-commerce system for billing and recharging debit SIM Cards. Developing a web based document generator for current software systems.

NIIT International Educational Institute, Dec 2004 – Dec 2005:

- **Instructor**

Acting as a part time Instructor for 2 years in this institution to teach the following courses based on International Educational Standards. (VB.NET, C#, MS-SQL Server for Web and Windows Applications)

KASRA Co., Jan 2002 – Jan 2004:

- **Technical Developer**

As a member of the design and development team of following projects:

1. *Technical developer for developing KASRA Integrated Framework.*
 2. *Project manager assistance in project Planning and Time Tracking; Designing Relational Databases, Components and Developing XML web services.*
-

ARICO, Apr 2000 – Apr 2002:

- **Project Manager and Developer**

Design and develop several enterprise level applications for largest Steel Corporations of Middle East and some governmental organizations of Iran.

1. *Esfahan Metal Smelting Company - Design, Analyze and Develop Weighting and auditing software to control the balance of imported and exported materials and products of the factory.*
2. *Design, Analyze and Develop an enterprise reporting software for different area's of factory such as administration office and train posts*
3. *Electronic Document Management System for Esfahan Metal smelting co.*
4. *Maintaining wired and wireless networks of weighting system within factory.*
